Frontend developer with a passion for creating smooth, user-friendly web experiences. Eager to build, learn and explore frontend development. I'm looking for a internship in frontend developer role, with the hope of learning to achieve full-stack development in the future.

Education:

Damak technical Education Foundation

BSc Computer Science And Information technology

Nov 2020 – 2025

Damak, Jhapa, Nepal

Devi Secondary School

+2 Science Stream

July 2018-2020

Birtamode, Jhapa, Nepal

Technical Skills:

Frontend Development:

- HTML, CSS, SCSS, Tailwind CSS, JavaScript, TypeScript, React
- Responsive Web Design, UI/UX Best Practices

Backend & Databases (Basic Knowledge):

- Node.js, Express.js, MongoDB, REST APIs

Other Skills:

- Git/Github Version Control
- Web Performance Optimization & SEO Fundamentals
- Linux & Windows Administration
- Bash & PowerShell Scripting

Projects

1. HealthNet (*React & Node.js*)

- Developed a **blood donation management system** using React for frontend and Node.js backend.
- Enhanced **SEO and performance optimization** for faster load times.
- **GitHub:** [HealthNet](#)

2. Vulearn (*Full-Stack E-learning Platform*)

- Designed an interactive **online learning platform** using React & Tailwind CSS.
- Backend setup with Node.js and Express, using MongoDB as a database.
- **GitHub:** [Vulearn](#)

3. Bloge (*Personal Blogging Website*)

- Created a **responsive blog website** using Next.js and Tailwind CSS.
- Added **Markdown-based content management** for easy post creation.
- **GitHub:** [Bloge](#)

Non-Professional Experience & Interests

- **Data Analytics & Python** – Practicing NumPy, Pandas, and basic data visualization.
- **Deep Learning Enthusiast** – Exploring concepts of neural networks and AI.
- **Social Marketing & SEO** – Interested in online marketing strategies & growth hacking.
- **Graphics Designing And Content Creation** – Interested in graphics arts and animations, and likes to create relatable contents, only as a passion.
